

## 2025 Making Strides Against Breast Cancer Event in Utah

The American Cancer Society (ACS) hosts Making Strides Against Breast Cancer events nationwide to unite communities, honor survivors, and raise funds for life-saving programs and research. For the Utah chapter, Strike Visuals has proudly served as a long-term partner, providing professional branded display solutions that amplify awareness and deliver a polished, meaningful event experience.

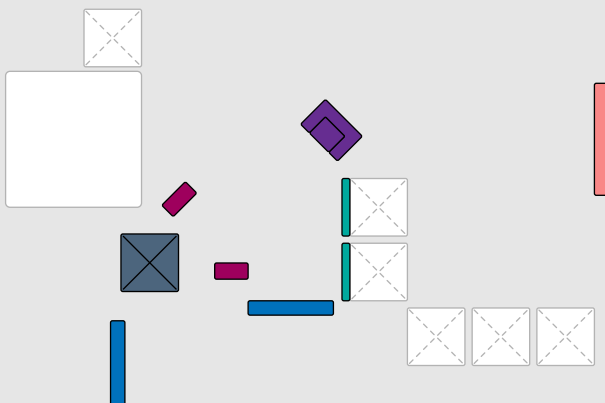

This year, Strike Visuals once again sponsored the event's entire suite of marketing displays, helping ACS elevate their message, guide attendees, and create photo-worthy moments that amplified reach both on-site and online.

Seeing the sea of pink and everyone coming out is truly amazing. And a big part of that—creating this incredible atmosphere—is having the right visuals. Strike Visuals always comes through for us. They make sure our events look amazing, sharp, and full of vibrant pink signage everywhere, courtesy of their support. So, thank you so much.

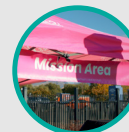

—Susan Gartell,  
Director of Development
